

NATIONAL UNIVERSITY
OF COMPUTER & EMERGING SCIENCES
PESHAWAR CAMPUS

Problem Set:	Assignment: AG05	Semester:	Fall 2017
Points:	<i>See autograder</i>		
Date Set:	<i>See autograder</i>	Due Date:	<i>See autograder</i>
Course:	CS101 Introduction to Computing	Instructor:	Dr. Nauman

1 Hint for Assignment – Primes and Factors

It is strongly recommended that you try to solve the assignment yourself. Only if you are stuck and absolutely cannot get an idea should you see the next page.

Of course, we will only give a hint and not the whole solution.

1. Search the Internet or python documentation to find out how to convert a float to int. Also see in detail what this conversion does.
